WHY LEARN CHINESE?

- One fifth of the world's population speaks Chinese -that's over 1.28 billion people! It is the most widely spoken first language in the world.
- China has beautiful landscapes, fascinating history and culture and amazing food. You will learn so much about this delightful country and its people.

- China is the second largest economy in the world. Australia has strong cultural, political, business, economic, and trade connections with China.
- China has become a huge market, and business leaders are looking for people who can speak Chinese and operate successfully in a Chinese cultural context.
- Chinese provides students with opportunities for future employment, in areas such as public relations, commerce, hospitality, fashion, education, marketing, international relations, media and tourism. Chinese visitors constitute a large portion of our tourism industry, therefore there are work opportunities in hospitality and tourism for Chinese speakers.
